THE CENTER HAS TWO SPONSORED SESSIONS AT APHA!

Session 4275.1: “Golden Years in the Golden State”

Center and other researchers discuss whether “The Golden State” is prepared to meet the challenges brought by California’s large and diverse aging population. Topics include increasing the uptake of clinical preventive services for seniors, economic security among caregivers, the Elder Economic Security Standard Index, and more.

Session 4198.0: “The Affordable Care Act Implementation: Implications for Immigrant and Refugee”

The Affordable Care Act left out much-needed health insurance for about 11.2 million undocumented immigrants. Center researchers discuss the impact of this exclusion, which may result in higher costs of care and worse health for undocumented immigrants.
