

## Center and CHIS Presentations at the 2014 American Public Health Association Annual Meeting New Orleans, LA

### COME TO THE CENTER'S SPECIAL SESSION ON CALIFORNIA'S PATH TO HEALTH CARE REFORM!

How successful were California's early efforts to enroll the uninsured in health insurance coverage programs in the years leading up to the implementation of the Affordable Care Act? At this Nov. 17 sponsored session, Center evaluators of the program and others will discuss California's Low-Income Health Program and examine whether a "medical home" model of service delivery improved care, the actors contributing to disenrollment from the program, as well as the concern that pent-up demand for services might overwhelm the system.
